

PAPER PLATE OWL

Things you will need to make your own paper plate owl .

Supplies You Will Need:

3 paper plates
Yellow, brown or orange construction paper
Scissors

Glue
Googly eyes
Crayons, paint or markers

1. Take out your first paper plate.
2. Fold about one third of the plate over and away from you.
This plate will be your owls head.
3. Cut two straight lines, on the folded part of the plate,
and the fold that section underneath the plate so you
no longer see it and glue the section to the back of the plate.
4. Glue down your two googly just above the folded part of your
paper plate.
5. With your colored construction paper cut a semi circle out
but leave a square cutout on the top.
6. Bend the two side in to make a cone like shape.
This will be your nose.
7. Glue your nose just underneath the folded part of the plate.
This will be just a little bit underneath and in the middle of
the eyes. You know have the head of the owl.
8. Glue the head to another paper plate.
9. Now take your last paper plate and cut it in half.
10. Glue each half of the paper plate on both sides of the body
at an angle. These are your owls wings.
11. Using construction paper again you will cut out your owls
two feet.
12. Cut out two small triangles.
13. On the bottom straight part of the triangle, cut out
another little triangle so you feet have toes.
14. You can now color in your owl and make it your own.
Add feathers, color in patterns, have fun.
