## 1. THIS STEP MUST BE DONE BY AN ADULT!!!

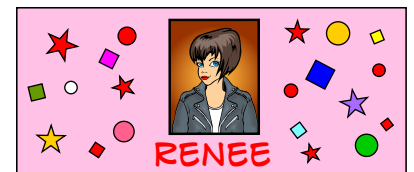

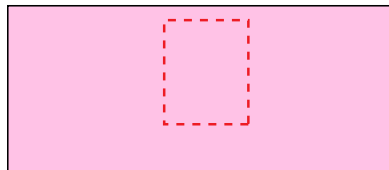

Take a knife and make a slit in the middle of the plastic cover of your coffee can. Make sure that it's large enough to fit any coins that you will store in the coffee can bank.

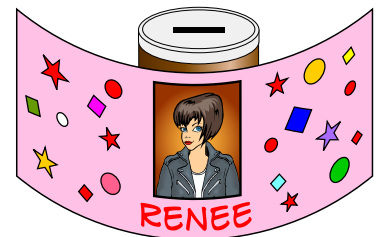

2. Take your colored paper or construction paper and cut out a rectangle large enough to wrap around your coffee can with an extra inch or so on it.

3. Take your rectangle cut out and glue the picture you are using where you like it the best. Now you can design, paint, color, glitter, and decorate the rest of your rectangle however you would like.

4. Now it's time to attach your design to the coffee can. Carefully glue your rectangle cut out to the coffee and glue down the extra inch of paper will overlap last.

5. Attach a couple of rubber bands around the can tightly in several places for about 24 hours to let the glue dry.

6. CONGRATULATIONS, you now have your very own personalized Coffee Can Bank to keep all your money in one place!
